

INVESTMENT OBJECTIVE:

The Johnson Equity Income Strategy is a domestic large cap equity portfolio that seeks to outperform the S&P 500 over a full market cycle. The portfolio aims to provide long-term capital growth with above-average shareholder yield and reduced volatility through downside protection. Johnson utilizes a disciplined construction framework relying on fundamental bottom-up research focused exclusively on quality companies.

INVESTMENT PHILOSOPHY:

Our Equity Income investment philosophy is based on the following beliefs:

- We seek to protect and enhance the spending power of capital over time through a focused discipline on quality, valuation and shareholder yield.
- We believe that high quality companies are those with high returns on investment, stable to expanding profitability and responsible leverage that provides financial stability.
- We believe that returning capital to shareholders via dividends, net share repurchases and net debt reduction is a hallmark of a quality business that creates positive incentives for managers making capital allocation decisions.

PORTFOLIO OVERVIEW:

- Domestic large cap equities with market cap over \$2 billion
- Diversified portfolio of 40-60 securities
- Deliver shareholder yield greater than the market
- Historically lower volatility than the S&P 500
- Expected annual turnover between 20 - 40%

Composite: The Johnson Equity Income composite was created on July 31, 2004, with an inception date of January 1, 2004 and includes all fee paying, fully discretionary, tax-exempt equity portfolios with a minimum of \$500,000 and an investment objective of 100% Equity Income. The gross return of the Johnson Equity Income Fund is included in this composite. The benchmark for this composite is the S&P 500 Index, a broadly diversified large cap equity universe of U.S. companies. Prior to 2008, the minimum asset size for inclusion was \$250,000. Eligible new portfolios are included in the composite the first full month after they have been deemed to be fully invested. The returns from terminated portfolios are included prior to the date of termination. Effective January 2010, a portfolio will be temporarily removed from this composite if it experiences a net inflow or outflow of cash of 30% or more during a one-month period. No leverage is used in the Composite portfolios. Portfolios in this composite include cash, cash equivalents, investment securities, interest and dividends. The U.S. dollar is the base currency. Prior to 2010, equity portfolios that were segments of balanced portfolios, is included in this composite and cash was maintained on a pro-rata basis in accordance with our asset allocation ratio.

All returns reflect the reinvestment of investment income (dividends and/or interest) and capital gains. Valuations and returns are stated in U.S. dollars. Trade date accounting is used. Portfolio returns are calculated using time weighted return methodology on a monthly basis. Net returns shown reflect gross performance less the highest fee schedule for this strategy. The highest investment management fee schedule for this strategy is 1.00%. Actual client returns could also be reduced by brokerage commissions, custodial fees, and other client paid expenses detailed in JIC's Form ADV Part 2A.
